(2) If there is no comparable item sold in substantial quantities to the general public, intrinsic value is defined as the price an individual would expect to pay for the item based upon an economic quantity as defined in FAR 52.207-4, plus the value of any unique requirements, including delivery terms, inspection, packaging, or labeling.

(c) At any time up to two years after delivery of a spare part or item of support equipment, the contracting officer may notify the contractor that based on all information available at the time of the notice, the price of the part or item apparently exceeds its intrinsic value.
